## Conditions of Permit:

1. The Conditions of Permit only relates to the movement of the regulated host plant and plant-related material specified on this Permit.
2. The holder of this Permit must not facilitate the interstate movement of the regulated host plant and plant-related material specified on this Permit.
3. The holder of this Permit must facilitate surveillance and audit of the Production Premises specified on this Permit by authorised biosecurity inspector as required.
4. The holder of this Permit must not allow Banana plant related material (excluding fruit) to be introduced to the Production Premises specified on this Permit, unless sourced from an accredited source.
5. Accredited banana plant-related material (excluding fruit) introduced to the Production Premises must be accompanied by a receipt to be kept and maintained as a record and made available on request.
6. The holder of this Permit must provide a receipt recording the following information if requested, and keep and maintain a copy as a record to be made available on request:
  - a. Name and address of the consignor;
  - b. Common name of plant-related material;
  - c. Number and type of items traded;
  - d. Transaction date.
7. The holder of this Permit must cease trading and notify the issuing authority immediately if they reasonably believe:
  - a. Banana Freckle is present at the Production Premises specified on this Permit;
  - b. The Permit conditions have been breached in any way
