Notes: This report is derived from Waybill data. Cattle numbers may be underestimated due to the delay in the return of some Waybills and may also be overestimated due to consecutive movements to final destination (duplication of same mob). Waybills are constantly being returned therefore numbers are being updated regularly. As of 1st February 2011 horses, deer and camels entering the NT from Victoria, South Australia and Tasmania will continue to require a NT Health Certificate & Waybill but it does not need to be endorsed by an inspector, therefore no requirement to return Waybill, so head numbers not included in the Waybill database.

Notes: This report is derived from Waybill data. Cattle numbers may be underestimated due to the delay in the return of some Waybills and may also be overestimated due to consecutive movements to final destination (duplication of same mob). Waybills are constantly being returned therefore numbers are being updated regularly. As of 1st February 2011 horses, deer and camels entering the NT from Victoria, South Australia and Tasmania will continue to require a NT Health Certificate & Waybill but it does not need to be endorsed by an inspector, therefore no requirement to return Waybill, so head numbers not included in the Waybill database.
